Online Services

Free Online Access! You will receive FREE online access to *The Journal of Mathematical Sociology* with your 2003 institutional subscription. For further details on your FREE online access, e-mail us at online@tandf.co.uk or visit our website: <http://taylorandfrancis.metapress.com>

 **Scholarly Articles Research Alerting** SARA is a free email contents alerting service de-signed to deliver tables of contents for over 740 journals of your choice in advance of the printed edition. Registering for the service is simple and you can now request to receive alerts by keyword or by title. For more information visit: <http://www.tandf.co.uk/sara/>

Visit the Taylor & Francis Sociology Arena: <http://www.sociologyarena.com>

The Journal of MATHEMATICAL SOCIOLOGY

The Journal of Mathematical Sociology publishes original articles, reviews, and research papers in all areas of mathematical sociology. The journal features coverage of topics in areas of mutual interest to sociologists and other social and behavioral scientists. Each issue presents papers that encourage fruitful connections between sociology and other disciplines. Included are articles on these topics and more:

- the use of mathematical models in social science
- the logic of measurement
- computers and computer programming
- applied mathematics
- statistics
- quantitative methodology

The Journal of Mathematical Sociology is abstracted and/or indexed in: COMPUMATH Citation Index, Current Contents/Social & Behavioral Sciences, International Bibliography of the Social Sciences, ISI Alerting Services, SciSearch, Social SciSearch, Social Sciences Citation Index.

Publication Details

Vol. 27, 2003, Quarterly
ISSN Print 0022-250X

2003 Subscription Rates

Institutional: US\$993/£781
Individual: US\$457/£277

Recent Contents

Nonlinear Continuous-Discrete Filtering Using Kernel Density Estimates and Functional Integrals, *Hermann Singer*

A Differential Equation Model for Predicting Public Opinions and Behaviors from Persuasive Information: Application to the Index of Consumer Sentiment, *David P. Fan and R. Dennis Cook*

Historical Evolution and Mathematical Models: A Socio-cultural Algorithm, *Jürgen Klüver and Jörn Schmidt*

The Statistical Signature of Pervasive Competition on Wage and Salary Incomes, *John Angle*

The Emergence of Deontological Codes in Public Administration, *Angelo Antoci and Pier Luigi Sacco*

Further Algebraic Results in the Theory of Balance, *John Bramsen*

Some Algebraic Structures for Diffusion in Social Networks, *John Levi Martin*

A Deductive Approach to Friendship Networks, *Joseph M. Whitmeyer*

The Nonlinear and Scaled Growth of the Ottoman and Roman Empires, *Güngör Gündüz*

The Rational Weakness of Strong Ties: Failure of Group Solidarity in a Highly Cohesive Group of Rational Agents, *Andreas Flache*

Special Society Member Discounts

Members of the following societies may enter an individual subscription to Volume 27, 2003, (4 issues) of *The Journal of Mathematical Sociology* at these discounted rates. See the order form for details or call 1-800-354-1420, ext. 216.

American Sociology Association: Mathematical Sociology Section.
Individual rate of US\$63/£38

The International Network for Social Network Analysis.
Individual rate of US\$63/£38

Japanese Association for Mathematical Sociology.
Individual rate of US\$63/£38

ORDER FORM

The Journal of Mathematical Sociology
Quarterly, Volume 27 (2003) • ISSN 0022-250X (print)

Please enter my:

- Institutional print subscription to Vol. 27 including **free online access*** at US\$993/£781
- Personal subscription to Vol. 27 at US\$457/£277**
- I am a member of ASA (American Sociology Association: Mathematical Sociology Section), please enter my individual subscription at the special rate US\$63/£38**
- I am a member of INSNA (The International Network for Social Network Analysis), please enter my individual subscription at the special rate US\$63/£38**
- I am a member of JAMS (Japanese Association for Mathematical Sociology), please enter my individual subscription at the special rate US\$63/£38**

Please send me a free sample copy
