

WATER, WETLANDS & WATERSHEDS SEMINAR

Fall 2011

Wednesdays, 11:45 – 12:35 PM, Phelps Lab 101

Brown bag (bring lunch if you'd like), the public is welcome & students may register for 1 credit:

ENV 6935 sec. 7454, SWS 4932/sec.7076 or SWS 6932/sec.1506

Aug 24	Mark Brown Professor, Env. Eng. Sci. Mark Clark Asst. Professor, Soil & Water Sci.	<i>Introduction.....food for thought</i>
Aug 31	TBA	<i>TBA</i>
Sept 7	Ravi Srinivasan Asst. Professor, Rinker School of Building Construction, UF	<i>Re(de)fining Net Zero Energy: Renewable energy balance in environmental building design</i>
Sept 14	Laila Racevskis Asst. Professor, Food and Resource Economics, UF	<i>Ecosystem services: Understanding values, policies and markets in Florida and beyond</i>
Sept 21	Kathryn Frank Asst. Professor, Urban and Regional Planning, UF	<i>Everglades ecosystem management initiatives: leaders or followers for climate change and sea level rise adaptation</i>
Sept 28	Marie Kurz PhD candidate, Geological Sciences, UF	<i>Influence of autotrophic assimilation and other biogeochemical controls on diel elemental cycling in streams</i>
Oct 5	Kimberly Bohn Asst. Professor, School of Forest Resources & Conservation; Chair Elect, Florida Society of American Foresters	<i>Regeneration and recovery of cypress-tupelo wetlands following logging</i>
Oct 12	Christine Overdeest Asst. Professor, Sociology and Criminology & Law, UF	<i>Predicting risk perceptions of expert stakeholders in a Florida water supply planning process</i>
Oct 19	Sean King PhD candidate, Environmental Engineering Sciences, UF	<i>Effects of flow on filamentous algae in Florida springs</i>
Oct 26	Matteo Convertino Postdoc Research Assoc., Agricultural & Biological Engineering, UF	<i>A probabilistic decision model for adaptive management of the comprehensive Everglades Restoration Plan</i>
Nov 2	Daeseok Kang Associate Professor, Department of Ecological Engineering, Pukyong National University, South Korea	<i>Marine peace park initiative as a tool for the collaborative management of ecological and economic resources in the western transboundary coastal area of South Korea</i>
Nov 9	Tatiana Borisova Asst. Professor & Extension Specialist, Water Economics and Policy, Food and Resource Economics, UF	<i>Water Issues in Southern US: A survey of public attitudes in 9 southern states</i>
Nov 16	Tom Swihart Author & former head of the Office of Water Policy, FDEP	<i>Florida's Water: A Fragile Resource in a Vulnerable State</i>
Nov 30	Dan Dourte Research & Extension Assoc., Agricultural & Biological Engineering, UF	<i>Water Footprint – metaphor or management tool?</i>

Presented by:

Howard T. Odum Center for Wetlands ~ The Water Institute ~ Dept. of Soil & Water Science
